

QUALITY POLICY

Fermata Technologies, LLC is dedicated to delivering high-quality proprietary premium and semi-premium thread connections for its global business. We commit to meeting and exceeding customer, end-user, and industry requirements by maintaining an effective Quality Management System (QMS) that conforms to API Q1 and ISO 9001 standards. We demonstrate our commitment through:

1. **Customer Focus**

Ensuring that our products consistently fulfill customer needs and regulatory requirements, while continually striving to enhance customer satisfaction.

2. **Continuous Improvement**

Regularly reviewing the QMS, our quality objectives, and this policy to enhance effectiveness, address risks, and drive operational excellence.

3. **Supplier and Licensee Management**

Evaluating and overseeing suppliers, as well as ensuring that approved licensees meet established requirements and maintain the capability to provide products and services that align with our quality standards.

4. **Employee Engagement and Development**

Fostering a culture where all employees understand their roles, receive necessary training, and actively contribute to the continuous improvement of our processes.

By upholding these principles, Fermata Technologies, LLC aims to build lasting partnerships, exceed customer expectations, and solidify our reputation for providing premium OCTG thread connection solutions within the global energy market.
